

## **2019 Local Garden Fest & Plant Sale**

### **Vendor Invitation & Application**

The Desert Oasis Teaching Garden is hosting our Local Garden Fest and Plant Sale on April 27, 2019 from 10am to 2pm. As our primary fundraiser for the year, DOTG will be selling hundreds of different desert adapted veggies, herbs, and native plants along with handcrafted body care products. We are looking to include a wide variety of vendors and educators who will complement and diversify the offerings for the event. We anticipate 900+ people to attend this year's event.

Vending/booth space is limited, and preference will be given to those vendors who most closely relate to the DOTG principles of sustainability, local food and agriculture, healthy communities, and environmental education.

Any vendor selling food products that were prepared off-site must have the proper permitting and will need to comply with environmental health food safety requirements.

DOTG can provide an 8-foot table and two chairs to each vendor unless other arrangements are made in advance. Shade structures are recommended and should be securely weighed down. Vendors are asked to set up between 8:30-9:15 am.

This event will be held outdoors. This is a rain or shine event.

Vendor Fee: \$10 (Fee is waived for schools)

Questions about the Local Garden Fest & Plant Sale can be directed to Tiana Baca at (505)828-3164 or [bacat@aa.edu](mailto:bacat@aa.edu). Return this form by March 1, 2019. Selections will be made by March 8, 2019 and you will receive a confirmation email and details on vendor fee payment.

Please provide a very brief description of what you will have at your booth. This allows us to advertise your business/organization correctly in our printed materials. NOTE: Sale of live plants will be restricted to the DOT Garden only.

If you are selling processed foods, please provide a copy of your current Environmental Health Permit.

What is the best way for the public to find your business or organization? \* May we include your business information in a handout for the public?

Will you need DOTGarden to provide a table (8') and chairs (x2)?

Will you be using a shade structure?
